E.S. I Randolph reports that his drugstore cor. North and Watchung are, was entered between 12.30 this noon and 115 pm. by some one who went down to the cellar on the dum twat waiter and through the cellar uptains forceing the door leading from the cellar to the store \$16.00 was taken from the cash register. It looks like an inside Joh I had a talk with Louis H unts a boy who works in the store but could not get anything out of him. Everything points to his being the guilty party as he had charge of the cellar and was warned to keep the door to the dumb waiter fastered and has had no occasion to use it for the last 3 weeks today

I was called about one velock this am. by Patrolman Vanderweg to investigate on an assault on Herbert Chamberlain and my brighany at 308 East 4th. st. When I arrived at the house I fo war admitted at the rear door by Walter S. Gassner (brotherinlant Chamberlain) who appeared to be very nervous he took me to Chambertonins rome room Dr. Browning was admirting cloraform to him at the lime so after looking at the wound (which was in the right ear an uneven cut about an much or an inch an a half long and smaller wound behind the ear sthat seemed to have been made by the same blow that made the wound in the ear I should say he had been struck with some blunt instrument which went through the ear and made the wound, in the head, the wound in the head sumed to me to be trian gular in shape) I looked of over the house gassner going with me I asked him how the burglar got in he took him to the dineing room and showing me a window that was down at this time said the he found the window up a w piece of word used as a wedge to hold it up I examined the window and found two dambs of mud on the outside of the sill there was several large per pebbles in the mind but no mark of a shoe or footprint Tooked for footprints outside the window on the Ground and on the poarch but found none, the vilclotte sa on the floor inside the window was clear and no sign of a foot print I then started to go upstains and Gassner Called my

attention to one burnt match on the stairs in the hallway at the head of the stairs Gasmer's trunk was standing the trays were out on the floor and the contense tossed about he said \$40.00 two ten dollar & one twenty dollar bills had been taken 9 about 80 burnt mother were living on the floor about the trunk I could not find any burnt matcher in chamberlains room on in the room between his bedroom and the hall, I then asked Gassner to tell me all that had occoured what wahend him and what he saw heard and did. he said he heard Herbgroan and supposed that was what water waked him he turned on as small electric light and saw (throng the open door of his rom room) a colored man run down the starrs he could only see his head and shoulders I took the position he was in at the time (after puting the lamp in the other room and shuting the door to darken the hall) and on turning on the electric light I found its rays would not reach the stairs he said he fumple from bed and rand after the man he saw go down staris and saw him run out the rear door he then went to chamberlain room and asked him if he was hunt and told him to lay still and he would call a dr. then he cat wend to Headquarters and reported to Single Frederickson who called Dr Browning " went to the house about & am and found a flower bed with a spot that looked as though someone had taken a hand full of dist from in on comparing it with the dist on the window I found it to be the same I reported to Chief Kiely the result of my investigations and as a result Walter S. Gassner was arrested changed with assaulting Mc Coultry Chamberlain
